

drive.tech – new website for technology aficionados

Stories, blogs, and innovations in drive technology

A treat is in store for drive technology aficionados: drive.tech, a brand-new website with interesting stories, news, and blog posts. In addition, drive.tech is a platform for start-ups and student projects supported by Swiss drive specialist maxon motor.

Stories about robots, Mars vehicles, and electro-mechanical prostheses. Blogs about the energy efficiency of drives, how to select the right motor, and current trends – all this and more is now available to technology enthusiasts on drive.tech. The platform is powered by maxon motor, the leading manufacturer of DC motors and drive systems.

Innovative engineers present their projects

drive.tech is continuously updated with interesting projects and content from all over the world. It's a site where start-ups and teams of students supported by maxon present their inventions. Readers are assured to stay up-to-date on the latest developments in drive technology and are encouraged to share popular and trending news with friends. Visit drive.tech and check it out today!
